### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The instant application discloses an apparatus for acquisition of a direct-sequence/code division multiple access signal. Prior art references (Higuchi et al. 6,167,037) show similar methods but fail to teach **"a differentially coherent combining portion for deciding whether acquisition of the common short code is achieved or not by multiplying a complex conjugate value of previous output of the long code masking correlation portion by present output of the long code masking correlation portion and by accumulating the results of multiplication during the predetermined times and by taking an absolute value of the accumulated value"**, as in claims 1 and 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
